NOVELTIES INTRODUCED BY WALLER-FRANKLIN IN 1935

* * * * *

NEW MINIATURE PETUNIA ROSE GEM—Rose Gem is a charming addition to the new miniature group of Petunias which was started with Pink Gem. Rose Gem is the color which the public has been asking for in this miniature form. It is the rich deep rose that has made Petunia Rose of Heaven so popular. The plant is neat and compact, five to six inches high and smothered with rich rose colored blooms about two inches in diameter. *Winner of Award of Merit in the 1936 All-America Selections.*

Price per oz. \$7.50.

NEW PHLOX DRUMMONDI GIGANTEA ART SHADES—A new strain of Phlox Drummondii with flowers an inch and a quarter to an inch and a half in diameter. In addition to its enormous flowers (which in itself would be enough to justify it as a novelty) it has a most wonderful range of color in soft art shades. The colors range as follows: Salmon with white eye, deep salmon with cream eye, appleblossom, soft rose with white eye, light blue with white eye, pale violet with white eye, light mauve with cream eye, rose with white eye and many other pleasing art shades.

The soft colors blended together make a most beautiful mixture and a color combination never before seen in annual Phlox. There is a complete absence of harsh colors in this wonderful mixture and it should appeal to those who are looking for soft color effects in their gardens. Plants about nine inches high. *Winner of Award of Merit in the 1935 All-America Selections.*

Price per oz. \$0.85, per lb. \$10.00.

NEW PANSY WALLER-FRANKLIN SPECIAL FORMULA MIXTURE OF SWISS GIANTS—This magnificent blend of choice rare colors far surpasses in quality and range of color any mixture of Swiss Giants we have ever seen. The plants appear more compact than the usual Swiss Giants and most of the flowers are beautifully frilled. The Formula Mixture was practically the last contribution of the late Dr. Franklin to the field of Floriculture and we consider it the supreme Pansy mixture of all time. Greatly admired by all visitors to our cultures during 1934 and 1935.

Price per oz. \$6.25, per lb. \$75.00.

NEW MARIGOLD DIXIE SUNSHINE—This is an entirely new Chrysanthemum-flowered type of Marigold. It comes 100% fully double, pleasantly without the familiar Marigold odor in the flowers. The brilliant golden yellow flower is actually a head of tiny five petalled flowers, a lacinated effect. Tall bushy growth, rich green foliage, supporting masses of bright flowers on fine stems for cutting. *Winner of Award of Merit in the 1936 All-America Selections.*

Price per oz. \$1.00, per lb. \$12.00.

NEW CANDYTUFT UMBELLATA WALLER'S ROSE CARDINAL—Years of careful selecting have rewarded us with an extremely fine stock of Candytuft Rose Cardinal. This improved stock is much richer, due to its being several shades deeper. The plants are noticeably more robust, producing half again as many stems, which in turn support almost twice as many florets, and the fact that it comes 98% true to color makes it far superior to the old Rose Cardinal. Price per oz. \$0.45, per lb. \$5.00.

NEW LUPINUS GIANT KING SKY BLUE—The huge flower spikes are a clear light blue, so desirable in flowers. The beauty of the individual florets is enhanced by a narrow white stripe in the center of the standard. Price per oz. \$0.25, per lb. \$3.00.

NEW LUPINUS GIANT KING HELIOTROPE—A rosy purple in color, and like Sky Blue has a definite white stripe in the standard which greatly adds to the beauty of this striking color. Price per oz. \$0.25, per lb. \$3.00.

NEW VERBENA HYBRIDA GRANDIFLORA APPLE BLOSSOM—The florets of this Verbena are almost white, shading to a delicate Cameo Pink towards the edge of the petals. The very edge of the petals being a true Cameo Pink. A delicate new color in Verbenas. Individual florets are one and one-fourth inches in diameter. The flower head itself measures from 4 to 5 inches across. The plant normally measures about 2 ft. in diameter. This Verbena is very floriferous and comes 99% true to color. Price per oz. \$1.25, per lb. \$15.00.

NEW STOCK SUPER GIANT IMPERIAL ROSE CHARM—A beautiful, rich deep rose. Price per oz. \$2.50, per lb. \$30.00.

NEW STOCK SUPER GIANT IMPERIAL ROSELIGHT—This striking rose-pink stock will prove a valuable florist color. Price per oz. \$2.50, per lb. \$30.00.

NEW ASTER CALIFORNIA GIANT SUNSHINE ALPENGLOW—Color charting this Aster in Ridgway, we have the following: Guard petals, Rosolane purple; Quilled petals, pale rose purple; Center Premuline yellow. Price per oz. \$1.65, per lb. \$20.00.

NEW ASTER CALIFORNIA GIANT SUNSHINE BLUE MOON—The guard petals are the same beautiful light blue color so much admired in Aster California Giant Light Blue; the quilled petals are several shades lighter, while the center is an amber yellow. Price per oz. \$1.65, per lb. \$20.00.

NEW ASTER CALIFORNIA GIANT SUNSHINE MOONBEAM—The blooms of this Aster are snow white with a small center of soft orange. Price per oz. \$1.65, per lb. \$20.00.

* * * * *

NEW ASTER CALIFORNIA GIANT SUNSHINE RAINBOW—A bright rose-pink Aster of a true California Giant habit. The stems are long, strong and non-lateral. The guard and quilled petals are the same color, a delightful shade of bright rose-pink, with a center of soft orange. Price per oz. \$1.65, per lb. \$20.00.

NEW ASTER CALIFORNIA GIANT SUNSHINE STRATOSPHERE—A rich dark blue, which might be compared in color to Light Purple in the California Giants. The guard petals are pansy violet and the quilled petals are lavender, with the center a charming shade of orange. Price per oz. \$1.65, per lb. \$20.00.

NEW ANNUAL CANTERBURY BELL WEDDING BELL—This new pure white color makes a very desirable addition to the group of Annual Canterbury Bells. Less than five months after the seed has been sown, this *Campanula* starts blooming and will bloom continuously until the heavy frost in the fall. It makes a compact, base branching plant with a large center spike, symmetrically surrounded by eight to ten slightly smaller spikes. Price per oz. \$0.35, per lb. \$4.00.

NEW EARLY FLOWERING SPENCER SWEET PEA SHIRLEY TEMPLE—This Sweet Pea which we consider the most beautiful we have ever originated, was obtained through a cross between Pinkie and Lady Gay. It has inherited blooms with the size and richness of color in Pinkie, plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie. The flowers are the largest we have ever seen on any Sweet Pea and it has long stems with four very large blooms on each stem. This new Sweet Pea is so charming and dainty that it deserved the most appropriate name we could find. With the kind permission of Mr. and Mrs. Temple, it is named in honor of their daughter, the charming and lovely little cinema favorite, Shirley. Price per lb. \$3.00.

NEW EARLY FLOWERING SPENCER SWEET PEA CLARET CUP—This is a distinctly new color in Early Sweet Peas and is best described as pansy purple. The blossoms are large, measuring from $1\frac{3}{4}$ to 2 inches across. The stems are long and sturdy bearing four blossoms to the stem. This Sweet Pea is a strong grower and has an exceptionally long flowering season. Price per lb. \$3.00.

NEW LATE OR SUMMER FLOWERING SWEET PEA CHINESE BLUE— Chinese Blue is a solid blue, richer and deeper than Blue Bonnet or Marine. The color is solid without the objectionable fading out on the edges as in Marine and to a lesser extent in Blue Bonnet. Young buds, standard and wings are all one solid rich deep blue. The stems are longer than those of Reflection and bears fours throughout. It has strong, vigorous plants with a blooming season which is longer than that of the average Sweet Peas. Price per lb. \$2.50.

NEW RUST PROOF ANTIRRHINUM MAXIMUM ALASKA—This Antirrhinum may be compared with Antirrhinum Maximum Snowflake as to color and height of plant. However, the blooms are considerably larger and better spaced. It is more floriferous, throwing from 12 to 14 spikes to the plant, which is base branching. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM APPLE BLOSSOM—An Antirrhinum of exceptional merit, which is the same in color as the non-resistant Maximum Apple Blossom but is far superior in habit. The blooms are huge and are gracefully spaced on long non-lateral stems, making spikes of exceptional length. The broad foliage and the stems are a bright green and the plants are base branching having from 8 to 15 spikes to a plant. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM CAMPFIRE—A new color in Antirrhinums. The color appearing as being pure luminous scarlet, free from orange or bluish tinges, has not heretofore been available in pure culture. The yellow lip makes the pure color of the blossom still more outstanding. The blossoms are closely spaced on 3½ ft. non-lateral stems and produce a spike about 10 to 12 inches long. The broad foliage and long stems are of a bright green. The plants are very floriferous, throwing from 15 to 18 spikes each, which are in bloom at the same time. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM CANARY BIRD—This Antirrhinum is identical in both size and color with Antirrhinum Maximum Canary Bird. However, the blooms of this Antirrhinum are slightly closer spaced which gives the flower spike a more graceful appearance. The plants are very vigorous having from 12 to 14 non-lateral stems with green spotless foliage. Price per oz. \$0.75, per lb. \$9.00.

NOVELTIES INTRODUCED BY WALLER-FRANKLIN IN 1935—Continued

* * * * *

NEW RUST PROOF ANTIRRHINUM MAXIMUM COPPER SHADES—This variety is outstanding in the Maximum group due to the considerable range of shades present. Starting with a deep, rich, velvety copper orange, almost every possible coppery shade may be found until we reach the lightest colored blossoms which are a coppery old gold. The yellow lips vary in size and blend perfectly with the coppery colors of the blossoms. The plants are base branching with long, strong stems. The broad foliage is bright green on some plants and rich deep green on others and while some of the stems are bright green, others will show a tinge of red (Coccinea stems). Each plant will throw from 12 to 16 long and graceful spikes. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM FAIR LADY—The pink in this Antirrhinum is the same as the pink of the great favorites Jennie Schneider and Nanum Grandiflorum Silver Pink. However, Antirrhinum Maximum Fair Lady is a remarkable Maximum both as to habit and size of bloom. The beautiful pink of the blossom is emphasized by the small yellow spot at the lip and by the white tube. The blossoms are exceptionally large on long, graceful non-lateral stems, which have broad green foliage. This Antirrhinum is very floriferous, throwing from 12 to 18 spikes to the plant. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM LOVELINESS—This Antirrhinum is destined to be a great favorite as it is a most attractive pure soft rose-pink. It has exceptionally large flowers, gracefully spaced on long non-lateral stems. The broad foliage and stems are bright green. The plants throw from 12 to 16 long strong spikes making it an especially good cut flower variety. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM PINK SHADES—The pink colors in these Antirrhinum are all pure shades of pink, free from any purplish or bluish tinges. Most of the flowers have tubes of the same color and a small percentage have white tubes which emphasize the color of the blossoms, forming, so to speak, a most suitable background to the pink shades. The plants are all base branching with long stems. The broad foliage and the stems are bright green. Antirrhinum Maximum Pink shades are very floriferous, throwing from 14 to 18 long graceful spikes to the plant. Price per oz. \$0.75, per lb. \$9.00.

NOVELTIES INTRODUCED BY WALLER-FRANKLIN IN 1935—Continued

* * * * *

NEW RUST PROOF ANTIRRHINUM MAXIMUM RED CROSS—This Antirrhinum is of outstanding merit, particularly for garden use. The glistening white tubes make an effective background to the deep, rich crimson of the face of the blossoms. The plants are base branching, having 15 to 18 flower spikes. The non-lateral stems are slightly tinted with red. The broad leaved foliage is a rich dark green. Price per oz. \$0.75, per lb. \$9.00.

NEW RUST PROOF ANTIRRHINUM MAXIMUM MIXED—We are pleased to offer a Maximum Rust Proof Mixture which is superior to any mixture that we have ever seen. This mixture contains all the colors that have been introduced in the non-resistant types, plus many new shades. The habit of all the plants is base branching, having from 12 to 18 spikes on which the blossoms are gracefully spaced. We strongly recommend this superior strain. Price per oz. \$0.50, per lb. \$6.00.

NEW RUST PROOF ANTIRRHINUM MAJUS GRAND. BUTTERCUP—A new color in Antirrhinums which has not heretofore been available in pure cultures. The deep canary yellow on the lip and the base of the standard, blending to a pale creamy yellow towards the margin, gives the flower a delightful two-tone effect. The long graceful spikes and the broad green foliage of this variety marks a distinct advance in Rust Proof yellow Antirrhinums. Price per oz. \$0.65, per lb. \$7.50.

NEW RUST PROOF ANTIRRHINUM MAJUS GRAND. DAININESS—This Antirrhinum is exactly the same color as the non-resistant Antirrhinum Majus Grand. Pink Domino. The individual blossoms are as large as Maximum blossoms and are gracefully spaced on the spikes. The plants are base branching with 10 to 18 long, non-lateral spikes. The stems and foliage are a bright green. Price per oz. \$0.65, per lb. \$7.50.

NEW RUST PROOF ANTIRRHINUM MAJUS GRAND. PINK SHADES—A pleasing blend of pink shades, blending from light rose-pink to dainty pale pink free from any purplish or bluish tinges. The plants are all base branching having from 10 to 12 long spikes with large flowers which are well spaced. Price per oz. \$0.65, per lb. \$7.50.

NEW RUST PROOF ANTIRRHINUM MAJUS GRAND. SCARLET (DEFIANCE)—An excellent bright scarlet-red Antirrhinum for the Majus Grandiflorum group. The flowers are very large and of a velvety texture. The yellow spot on each lip is so small that it is hardly noticeable. Although this Antirrhinum has the blooms of a Maximum, it is placed in the Majus group due to its habit, being about a foot shorter than the Maximums. Price per oz. \$0.65, per lb. \$7.50.

EARLY FLOWERING SPENCER SWEET PEAS

Our Early Flowering Sweet Peas are especially grown for culture under glass. They are equally desirable for growing out of doors.

SHIRLEY TEMPLE (Waller-Franklin)

seovj This Sweet Pea which we consider the most beautiful we have ever originated, was obtained through a cross between Pinkie and Lady Gay. It has inherited blooms with the size and richness of color in Pinkie plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie. The flowers are the largest we have ever seen on any Sweet Pea and it has long stems with four very large blooms on each stem.

This new Sweet Pea is so charming and dainty that it deserved the most appropriate name we could find. With the kind permission of Mr. and Mrs. Temple, it is named in honor of their daughter, the charming and lovely little cinema favorite, Shirley.

COLOR CLASSIFICATION

In view of the numerous Sweet Pea introductions, it seems necessary to set up a classification according to color.

Every year we make careful color comparisons of the older varieties and the latest introductions and are in an eminent position to judge their respective merits.

We now take pleasure in submitting a color classification of the Standard Spencers.

The variety we consider best in each color class is indicated by an asterisk (*).

CALENDULA—Continued

CALENDULA ORANGE SHAGGY

cabcy Orange Shaggy is a distinct break in Calendulas. The petals are long and deeply fringed or lacinated. Row after row of these long fringed petals overlap each other in a rather irregular fashion and build up a bloom with a shaggy appearance.

These blooms are of great grace and beauty, sharply contrasting with the rather formal appearance of varieties such as Orange King, etc.

The color is a deep orange shading to slightly lighter orange in the center of the bloom. Plants about eighteen inches high. Winner of Gold Medal in the 1935 All-America Selections.

Price per oz. \$0.10, per lb. \$1.00.

CANDYTUFT UMBELLATA WALLER'S ROSE CARDINAL

(Waller-Franklin) (New)

caexe Years of careful selecting have rewarded us with an extremely fine stock of Candytuft Rose Cardinal. This improved stock is much richer, due to its being several shades deeper. The plants are noticeably more robust, producing half again as many stems, which in turn support almost twice as many florets, and the fact that it comes 98% true to color makes it far superior to the old Rose Cardinal.

PANSY (Heartsease)

PANSY WALLER-FRANKLIN SPECIAL FORMULA MIXTURE OF SWISS GIANTS

papvy This magnificent blend of choice rare colors far surpasses in quality and range of color any mixture of Swiss Giants we have ever seen. The plants appear more compact than the usual Swiss Giants and most of the flowers are beautifully frilled. The Formula Mixture was practically the last contribution of the late Dr. Franklin, to the field of Floriculture and we consider it a supreme Pansy mixture. Greatly admired by all visitors to our cultures during 1934 and 1935.

NEW PETUNIA RUFFLED NANA COMPACTA, MARTHA WASHINGTON
(Waller-Franklin)

patsa A new break in Petunias. Martha Washington is a ruffled or frilled nana compacta. Its growth is about nine inches high and it forms a perfect ball effect, literally smothered with lovely frilled blooms about three inches in diameter. Its neat, compact habit has never before been seen in Petunias.

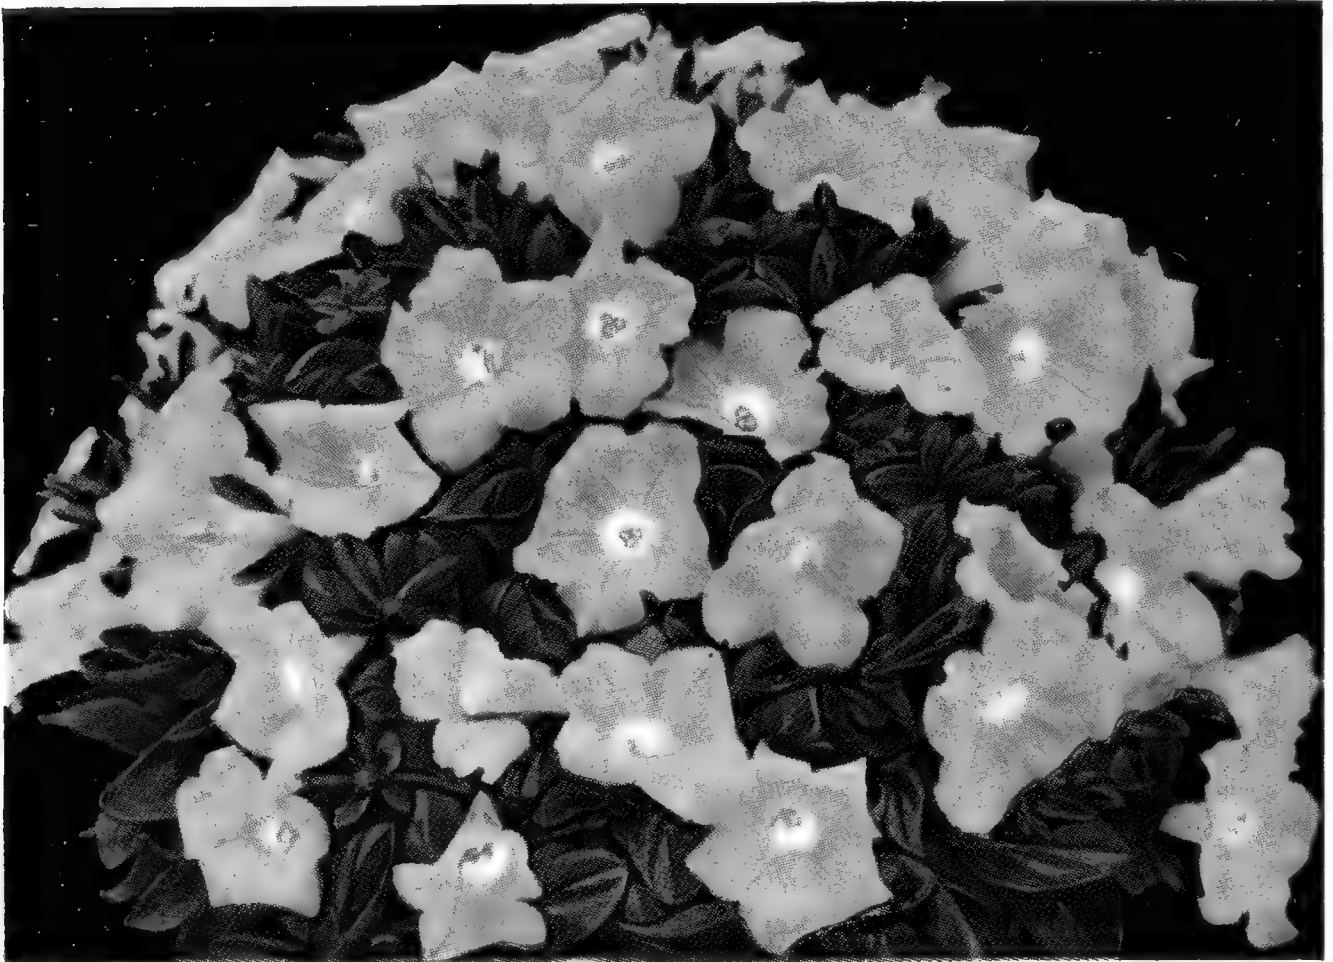

The color is quite remarkable. The frilled portion of the flower is a beautiful blush pink and the center portion is strongly veined a rich wine red deepening in the throat, which is large, to dark violet; the whole forming a striking contrast of colors. Award of Merit All-America Selections 1935. Highly Commended R. H. S. 1935.

PHLOX DRUMMONDI, 1 ft.

PHLOX DRUMMONDI GIGANTEA ART SHADES (Waller-Franklin)

pecuci A new strain of Phlox Drummondii with flowers **an inch and a quarter to an inch and a half in diameter**. In addition to its enormous flowers (which in itself would be enough to justify it as a novelty) it has a most wonderful range of color in soft Art Shades. The colors range as follows:

Salmon with white eye, deep salmon with cream eye, Appleblossom, soft rose with white eye, light blue with white eye, pale violet with white eye, light mauve with cream eye, rose with white eye and many other pleasing art shades.

The soft colors blended together make a most beautiful mixture and a color combination never before seen in annual Phlox. There is a complete absence of harsh colors in this wonderful mixture and it should appeal to those who are looking for soft color effects in their gardens. Plants about nine inches high. Winner of Award of Merit in the 1935 All-America Selections.

VERBENA HYBRIDA GRANDIFLORA (GIANTS)

A magnificent strain of Verbenas, of robust compact habit and free blooming. The trusses are immense, the individual florets measuring an inch in diameter.

APPLE BLOSSOM (Waller-Franklin)

vabys The florets of this Verbena are almost white, shading to a delicate Cameo Pink towards the edge of the petals. The very edge of the petals being a true Cameo Pink. A delightful new color in Verbenas. Individual florets are one and one-fourth inches in diameter. The flower head itself measures from 4 to 5 inches across. The plant normally measures about 2 ft. in diameter. This Verbena is very floriferous and comes 99% true to color.

Price per oz. \$1.25, per lb. \$15.00.

SPECTRUM RED (Waller-Franklin)

vadok As its name implies, this magnificent Verbena is an intense Bright Red, brighter than any other Verbena yet introduced. According to Ridgway, it is classified between Spectrum Red and Scarlet Red. Having absolutely no eye, the color is intensified, and its brilliance is quite dazzling. It is much brighter and larger than Lucifer and is comparable only to Etna, but without Etna's yellow eye. Individual florets are one and one-fourth inches in diameter. We strongly recommend this as the brightest Verbena in existence. Received special mention in the 1934 All-America Selections. Award of Merit, R. H. S. 1935.

Price per oz. \$1.25, per lb. \$15.00.

WALLER-FRANKLIN FORMULA MIXTURES

As the result of years of experimenting, our research department has perfected certain color blends of various mixtures.

These mixtures were subject to the criticism of visiting seedsmen for several years and when unanimously approved were considered MASTER FORMULAE.

Mixtures grown from these Master Formulae are listed in this catalog as "WALLER-FRANKLIN FORMULA MIXTURES."

PHOTOGRAPHS

We have a large collection of photographs of annuals and perennials suitable for catalog work and we will be pleased to send selections for your inspection. Price \$1.00 per print.

IN CONCLUSION

As the foregoing list shows, we specialize exclusively in annual and perennial flower seeds.

We are specialists in growing Flower Seeds and the heart of our business is composed of fifty acres of Experimental, Stock Seed Production and Test Grounds operated by a staff of experts. Here are developed pure line strains of varieties and special formulae for mixtures.

Every operation, from the time the seed is planted until it is harvested, threshed, cleaned and shipped to our customers, is supervised by experts.

We solicit your continued patronage on the merit of our seeds and the fairness of our prices.
